

III — GENERAL ASSEMBLY — OVERALL VOTES

One-hundred six Plenary votes were recorded at the 57th session of the UN General Assembly (UNGA). Of these 106 votes, 72 pertained to resolutions as a whole, 30 to separate paragraphs, one on a motion, one on an amendment, and two on decisions. Of the total 106 votes, the United States voted Yes 26 times and No 64 times; it abstained on 16 votes.

COMPARISON WITH U.S. VOTE

The tables that follow are based on the 90 instances the United States voted either Yes or No in Plenary. Columns show the number of times the United States and the pertinent country cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times a country abstained or was absent for these 90 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed “Voting Coincidence (Including Consensus)” presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see Introduction: Format and Methodology).

Section III has five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in rank order by voting coincidence percentage; (3) lists of countries by other important groups, again in rank order; (4) a comparison of 2002 voting coincidence percentages with those of the preceding five years; and (5) a side-by-side comparison of each country’s voting coincidence with the United States and a calculation of the amount of bilateral U.S. assistance provided to that country in fiscal year 2002 (from the Foreign Operations, Export Financing, Related Programs Act and P.L. 480 funds).

Countries with asterisks in the Voting Coincidence columns did not vote during the session. Under Article 19 of the UN Charter, the Central African Republic, Iraq, Liberia, and Niger did not vote because their financial contributions were in arrears. Neither Palestine nor the Palestine Liberation Organization have voting privileges at the United Nations.

The United States again voted No in Plenary more often than any other UN member (30 percent of U.S. No votes coincided with those of three or fewer countries) and voted No alone six times (about the same as last year, but far fewer than the 20 times in 1989). The United States voted with only one other country six times (three times with the Marshall Islands, twice with Israel, and once with India). On several other occasions, the United States was joined in a No vote by Israel and one or more other countries (usually Micronesia, the United Kingdom, Marshall Islands, France, or Palau). U.S. votes in isolation were on two resolutions concerning the Comprehensive Nuclear Test Ban Treaty, on resolutions on the relationship between disarmament and development and the right to food, as well as paragraph votes on involuntary disappearances and human rights in the Democratic Republic of the Congo. Votes with Israel were on issues regarding the Middle East, but also included support on some arms control and decolonization issues and the U.S. embargo of Cuba. Those votes with the United Kingdom and France were on decolonization and arms control issues. India voted with the United States on one resolution concerning a nuclear-free-world.
