

Jewish Student Survey

Word clouds from a national online survey of 400 Jewish undergraduate students, conducted October 28-November 20, 2011.

POS #11559

Neil Newhouse Robert Blizzard

When asked what one word describes Israel, <u>Jewish</u> students said . . .

*This word cloud was created through the use of wordle.net. Text from the verbatim comments were put into the program that turns all the words into a "word cloud." The cloud gives greater prominence to words that appear more frequently, and common phrases such as the, it, a, etc. were deleted.

When asked what one word describes Palestinians, <u>Jewish</u> students said . . .

*This word cloud was created through the use of wordle.net. Text from the verbatim comments were put into the program that turns all the words into a "word cloud." The cloud gives greater prominence to words that appear more frequently, and common phrases such as the, it, a, etc. were deleted.
